About Me

I'm Navaneet, an energetic and passionate artist; I run for the medals, code programs and finish my day with some rhyming poetries. I'm mastering Color pencil and sketching and an intermediate in Watercolors and acrylic. I'm mostly in Front-end, yet even learning Python. I even create many poems; free verse and rythmic.

Experience

Art and paintings
A well experienced realism and abstract artist

Art is my passion and interest since the age of 7. The famous words of Picasso; "A drawing can never be finished, it's when the artist abandons it when he's satisfied.", has always thrived me to fullfill the most. Thus I got a well experience in realism and abstract drawings with Color pencil, sketching and have strolled through the world of painting too! My drawings was even held in exhibition around the world!

Programming
Front-end developer

Developing web apps have been influencing me since the age of 12. I have worked in projects like my own portfolio, developing games like Alien Runner and Infinite cosmos, and have dedicated my entire coding skills in Ripen group of operating systems, a project by me and a team of hardworkers, which brings an OS with apps in your browsers, either in your computer or your phone

Achievements

2017
100m & 200m race
Golf medalist in interschool

On February of 2017, I participated in 100 meters and 200 meters running race in inter school competition held at Bangalore. I secured 1st place in both the races and thus was known to be flying rather sprinting!

2019
Exhibition winner
Winner in NFA exhibition

On August of 2019, I was been into the ever growing NFA exhibition. I was amoung 60 to color a scenery and rise it on the walls. I got the best drawing in my age category, both by the judges and public interest.

2022
RGOS Initiative
Started the journey of RGOS

On July of 2022, I started to code a mockup replica concept of Windows OS, called Windows Ripen which soon thrived me to start a family of varied OSs but on the web which is not just developed with codes but big ambitions.
